PROJECTS

MyShow

[\(View in GitHub\)](#)

Led MyShow development, a user-friendly platform for movie and TV show details. Leveraged ReactJS, Tailwind CSS, TMDB API, NPM Packages, and Razorpay. Boosted user engagement by 30% and decreased page load time by 20%. Collaborated cross-functionally to resolve technical issues, exceeding expectations promptly.

Space Tourism

[\(View in GitHub\)](#)

Created an immersive web platform showcasing space exploration destinations like the Moon, Mars, Europa, and Titan. Utilized ReactJS, Tailwind CSS, and NPM Packages for an engaging user experience. Ensured seamless navigation and visual appeal for optimal user engagement.
