SUMMARY

To secure a Frontend Developer role in a dynamic organization to apply my skills in building responsive web applications, optimizing performance, and enhancing user experience. Experienced in projects like MyShow and Space Tourism, with a focus on efficiency and seamless functionality.

EXPERIENCE

Full Stack Developer - intern   Feb 2023 - Jul 2023
Devtown Pvt. Ltd   *Bengaluru, Karnataka, India · Remote*

- Designed and developed a responsive full stack project using HTML, CSS, JavaScript, ReactJS, Tailwind CSS and MongoDB.
- Led multiple projects during the internship, focusing on MyShow. Improved ReactJS and Tailwind CSS skills while reducing page load time by 20%.

Web Developer - intern   May 2023 - Jul 2023
Acmegrade Pvt. Ltd   *Bengaluru, Karnataka, India · Remote*

- Built dynamic and responsive front-end project using HTML, CSS, JavaScript, and PHP.
- Designed and implemented user interface components, ensuring a seamless and engaging user experience.

SELECTED PROJECTS

MyShow   [Live](#)

- Independently developed a platform providing movie and TV show details using ReactJS, Tailwind CSS, TMDB API, and Razorpay.
- Collaborated cross-functionally to resolve technical issues, exceeding expectations promptly.

Space Tourism   [Live](#)

- Developed a responsive, immersive platform showcasing space destinations using ReactJS and Tailwind CSS.
- Optimized navigation and performance, ensuring a seamless user experience with visually appealing designs.
